About Me

Software developer with hands-on experience in designing, developing, and deploying software solutions. I have Knowledge in (OOP), web development, database management, and machine learning, with a foundation in Python, C, SQL. Good analytical skills in debugging, and optimizing code. Problemsolving skills, communication and a passion for continuous learning and innovation in emerging technologies.

Technical Skills

- **Programming Languages:** C, Python, SQL, React, Node.js, JavaScript, HTML5, CSS3
- **Technologies & Tools:** MySQL, Machine Learning, Data Science, DBMS, Data Engineering, VS code, Github
- **Software Engineering:** Agile, Scrum, Requirement Analysis, Debugging, and Object-Oriented Programming.
- **Soft Skills:** Teamwork, Communication Skills, Time Management, Problem Solving.

Experience

- **AICTE - EDUSKILLS [view]** *October 2025 - December 2025*
  Python Full Stack Developer Virtual
  - Hands-on experience in frontend technologies: HTML5, CSS3, JavaScript, and Bootstrap.
  - Learned back-end development using Python with Django/Flask frameworks.
  - Developed and deployed complete web applications.
  - Implemented RESTful APIs for application communication.

Projects

- **Loan Default Prediction** *Tools: Python, Machine Learning*
  Machine Learning Model for predicting loan defaulters
  * Developed a machine learning model to predict loan default using borrower information.
  * Performed data cleaning, preprocessing, and feature engineering on financial datasets to improve model accuracy.
  * Selected important features to improve the model performance.

- **Airline Reservation System** *Tools: Java, JDBC, MYSQL*
  Desktop-based airline booking application
  * Developed an Airline Reservation System using java for the application and JDBC for database connectivity.
  * Implemented features like flight booking, cancellation, and viewing flight details.
  * Managed passenger and booking data using a database system.

- **AI Smart Meal Planner (BiteGenie)** *Tools: Next.js, React.js, MongoDB*
  AI smart meal planning platform for generating personalized meal plans, nutrition insights
  * Developed a web application that helps users create personalized meal plans based on their food preferences.
  * Built features for meal recommendations, nutrition tracking, and grocery list generation.
  * Improved user engagement through AI-generated meal plans tailored to dietary preferences and fitness goals.

Certifications

- **AWS Certified AI Practitioner** [View] *2026*
- **Oracle Cloud Infrastructure 2025 Certified Data Science Professional** [View] *2025*
- **NPTEL Machine Learning** [View] *2025*
- **Data Engineering on AWS Foundations** [View] *2025*
- **Introduction to Modern AI (CISCO)** [View] *2025*
- **Networking Basics (CISCO)** [View] *2025*

Education

- **S.R.M Institute of Science and Technology** *2023 - 2027*
  Bachelors of Technology Chennai, India
  - GPA: 8.91/10.00

- **Sasi Educational Institutions** *2021 - 2023*
  Board of Intermediate Education Velivennu, India
  - Marks: 961/1000
